Web Application Help Document

Zoning Classifications < HELP > < Planning & Zoning Webpage > < Zoning Codes & Descriptions >

Notes:
Some layers are "zoom scale" dependent. For example, address points will not appear in the map until a user zooms in to a pre-defined map scale.
Use the +/- zoom buttons at the top left of the map window or drag & draw a zoom box on the map using the left mouse button while holding down the Shift key.

Click on a feature in the map to view pop-up information.
